SITUATION SUMMARY

Northern California Weather of Concern

A low pressure system in the eastern Pacific will bring cooler, wet weather to Interior Northern California beyond midweek. Ahead of the storm, breezy conditions and low humidity Tuesday afternoon into Wednesday evening will increase the potential for fires to develop and spread rapidly. Precipitation potential for Interior Northern California increases in the Coastal mountains Wednesday, spreading over much of the forecast area into Thursday. Scattered showers and mountain thunderstorms are possible Friday.

Potential Impacts

- Fire weather concerns Tuesday and Wednesday ahead of storm:
 - Potential aggressive wildfire growth in the mountains
 - A Red Flag Warning is in effect for the West Slope Sierra Nevada from 1400 Tuesday to 2000 hours Wednesday for wind and low relative humidity. This Warning extends from the Burney Basin to north of Yosemite for elevations above 3000 ft. Humidity 15-25 percent and southwest winds 15 to 25 mph with gusts 35 to 45 MPH. These conditions have potential to cause rapid fire growth over existing fires, especially the King Fire.
 - A Red Flag Warning is in effect from 1100 hours to 2300 hours on Tuesday for portions of Siskiyou County.
 - A Red Flag Warning is in effect from 1000 hours on Tuesday to 2300 hours on Wednesday for portions of Modoc County.
- Moderate to strong winds
 - Moderate to strong winds will provide an environment for rapid fire spread ahead of the rainfall.
- Heavy precipitation
 - A prolonged period of moderate to heavy rain could result in rock slides, mudslides and flooding on burn scars from wildfires this summer and last summer.
 - Flash Flood Watch in effect from Wednesday morning through Wednesday night in or near wildfire burn scar areas in central, north central, southeast, and western Siskiyou County. This includes the Happy Camp, July, Beaver, and Oregon Gulch Complexes. Since the Boles Fire in Weed was on fairly level, urban terrain, impacts from the approaching storm are not a major concern there.
 - There is concern for Mud Creek on Mt. Shasta where a debris flow occurred on Saturday, 09/20/14. The rain may cause additional flows due to the destabilized canyon walls. Two staff from the NWS Medford Weather Forecast Office surveyed the area; the only expected significant impacts there will be to the two (Forest Service) roads impacted over the weekend. No adverse impacts are expected for CA Highway 89.
 - Moderate rainfall will help suppress wildfire activity, beginning Wednesday afternoon
- Colder temperatures
 - Night time temperatures will be cool some frosts are possible at higher elevations; a widespread freeze is not expected at this time.
 - Snow levels are likely to remain high; 8,500-10,000 feet.

SITUATION SUMMARY

HAZARDOUS MATERIALS SPILL REPORTS

Hazardous Materials SPILL: 14-5382, Sanger, Fresno County

- On 09/23/14 at 0754 hours, the California State Warning (CSWC) received a report indicating that an ammonia release had occurred at the Sanger Poultry Facility in Sanger, Fresno County.
- The facility evacuated approximately 100-200 individuals and an unknown number of persons were transported to the hospital with unknown injuries.
- Per the Inland Region Duty Officer surrounding residences have been advised to shelter in place.
- The Cal OES Law Enforcement Branch, Fire Branch, and Inland Region continue to monitor the situation.

Hazardous Materials SPILL: 14-5383, Cabazon, Riverside County

- On 09/23/14 at 0758 hours, the CSWC received a report indicating that a vehicle accident occurred causing containers of hazardous materials to catch fire in Cabazon, Riverside County.
- Westbound I-10 is closed at Haugen-Lehman Road and traffic is being diverted off the freeway and back on to bypass the closure.
- State Route 111 is closed to Northbound traffic at Tipton Road.
- The material released was determined to be Phiophanate-Methyl and was in exceedance of 10 pounds reportable quantity (RQ).
- The Cal OES Law Enforcement Branch, Fire Branch, and Southern Region continue to monitor the situation.

Wharf Fire, Wilmington, Los Angeles County (NEW / FINAL)

The Los Angeles City Fire Department (LAFD) declared a major emergency in response to a four-alarm fire that burned about 150 feet of wharf and threatened a steel warehouse at the Port of Los Angeles in Wilmington. The fire started at approximately 1840 hours on 09/22/14 and was located near 802 S Fries Avenue, Wilmington, Los Angeles County.

- Over 170 Firefighters contained the bulk of the fire in less than two hours, but the hard to reach fire smoldered for hours and firefighters continued to work through the night.
- A backhoe was used to create a large trench in the wharf, which halted the fires progress and confined the fire to the wharf and under the warehouse.
- Unified command was established with LA City Fire, Long Beach Fire, and the US Coast Guard.
- All LAFD and Long Beach Fire Department fire boats, 22 LAFD engines, and LAFD helicopters were assigned to the incident.
- Four employees were evacuated from the warehouse and large cargo ships were asked to move away from nearby berths.
- At approximately 2100 hours on 09/22/14, APL and NYK terminals were evacuated due to smoke. Over 850 dock workers were evacuated as a precaution and harbor area residents were advised to stay inside and close windows to avoid the smoke.
- Reported chemical fumes were due to the burning of creosote soaked timbers that supported the concrete wharf.
- The ship tied off at the wharf was safely towed away.
- The fire has been extinguished and mop up operations are underway.
- It is anticipated that the Port of Los Angeles will return to normal operations today.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Beginning today, a trough will move over the West Coast bringing cooler temperatures and rain to northwest California. Expect widespread rain from late tonight through Thursday followed by the threat of showers continuing into the weekend.

San Francisco Weather:

Near seasonal conditions will continue across the San Francisco and Monterey Bay area today. Cooler weather and chances for rainfall are then expected starting Wednesday as an upper level system impacts the region.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Dry and warm temperatures continue today. Cooler and wetter weather is expected for the middle to end of the week.

Hanford Weather:

A cooling trend will begin during the second half of the week and continue into the weekend. In addition, light rain showers will be possible through at least the northwest side of the valley as early as Thursday. Over the weekend, the Sierra Nevada could also see light showers.

WEATHER

WEATHER SYNOPSIS BY REGION:

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Building high pressure will bring a warming trend through midweek. A trough of low pressure will bring cooler weather and an increase in night through morning low clouds and fog for late in the week. Offshore flow and a warming trend are possible by next Sunday.

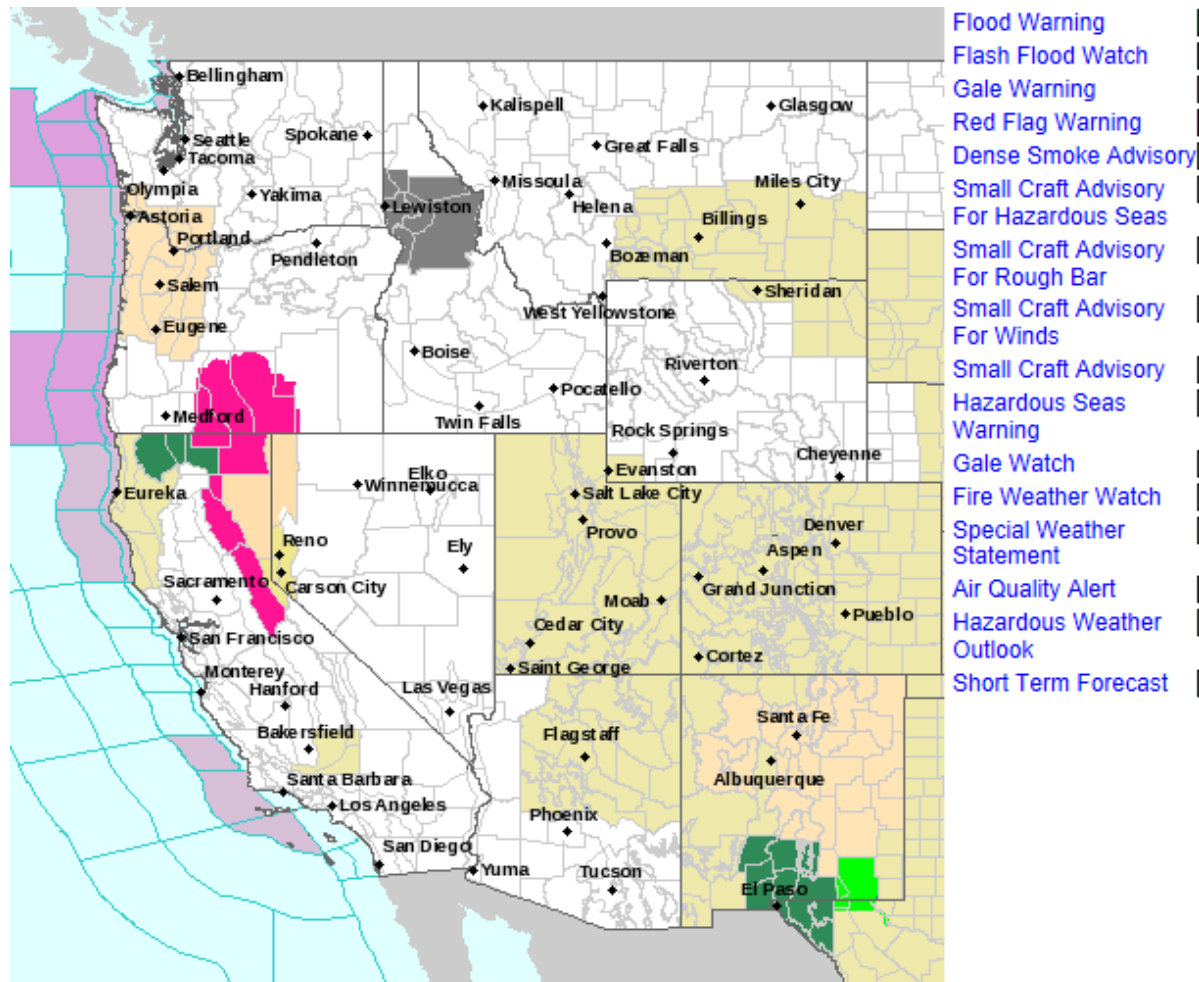

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

High pressure will bring a warming trend through Thursday with temperatures 5 to 10 degrees above normal Wednesday and Thursday. The marine layer will be shallow so that night and morning low clouds will be restricted to just near the immediate coast. A trough of low pressure will move into the area late in the week through the weekend. This weather feature will bring much cooler weather, widespread low clouds west of the mountains, and strong winds in the mountains and deserts.

Southeast California Weather:

Temperatures in the forecast area will be at least a few degrees above normal through Thursday. A Pacific weather system will lead to a return of storm chances across much of the region Friday into Sunday along with cooler temperatures.

- Cal OES Inland REOC activated to Level 2 at 0700 hours in support of Inland Region fires.
- Cal OES SOC is activated to Level 2 and staffed with the White IST at 0700 hours.

Shelter Operations

- American Red Cross Shelter - Mount Shasta Armory, 618 Everitt Memorial Hwy, Mount Shasta. Overnight population – 7.

Access and Functional Needs

- None reported

Fire Suppression Water Issue

- The City of Weed lost one of their drinking water storage tanks and is drawing water from a second tank. Cal OES is working with the Drinking Water Program to assist with finding a solution to this issue. The State Water Quality Control Board, Drinking Water Program (DWP) has reached out to the city. Per DWP, the City of Weed water system has six reservoirs (storage tanks). The one that was damaged by the fire was one of their smallest reservoirs. There are no issues with the drinking water supply. They lifted their self-imposed boil water order in the downtown area. City is concerned with water supply to fight fires in the future. As an interim solution, water tenders are in place throughout the city to provide water for fire suppression.

Schools

- Weed High School and Weed Elementary School will be open for normal operations on Tuesday, September 23, 2014.
- The elementary school was partially damaged but staff will transfer classes to other parts of school.
- Students will be bussed through the fire zones.

Requests for State Assistance (Excluding Missions)

- California Volunteers has reported to the area to assist with volunteer coordination.
- The State Water Resources Control Board, Drinking Water Program will assist with drinking water issues.
- The Department of Toxic Substances Control will to assist with local hazardous materials issues.

RECOVERY ACTIVITIES

Magnitude 6.0 Earthquake, American Canyon, Napa County

Situation

On Sunday, August 24, 2014, at 0320 Hours PST, a magnitude 6.0 earthquake struck five miles northwest of American Canyon, CA.

- The Governor declared a State of Emergency, 08/24/14.
- On September 11, 2014, the President declared a major disaster declaration in Napa and Solano Counties.

Recovery Activities

- Based on a request for additional IA information for the major disaster declaration request, IA teams conducted PDAs 09/8/14 through 09/12/14 in Napa County, the City of Vallejo, and Solano County. IA PDA teams conducted additional PDAs 9/17/14 through 9/19/14 finalizing PDAs in Napa County.
- The City of Napa website has information regarding earthquake recovery resources.
- Cal OES Recovery PA worked closely with the Operational Areas to schedule the PA Applicants Briefing to advise state agencies, local governments, and private non-profit organizations impacted by the earthquake the types of assistance available and the programmatic guidelines. Time and location: 09/23/14 at 1000 hours at the Napa Valley Exposition in the Chardonnay Hall, 575 3rd Street, Napa, CA.
- The Napa Long Term Recovery Committee (LTRC) is in the process of forming its leadership, establishing policies and procedures, and identifying a Mission statement. A follow up meeting is pending.
- State Voluntary Agency Liaison (VAL) participated in a Long Term Recovery discussion meeting on Monday, 09/15/14. Participants included several voluntary organizations, state and federal VAL, and leadership from Northern CA and Solano VOAD. A presentation on long term recovery and update on current recovery efforts was provided. Due to the absence of local faith based and other organizations that may have resources, SVOAD will reach out to expand the engagement of additional nonprofit and faith based partners. Once the organizations are identified, a follow up meeting will be held in hopes of identifying key leaders interested in forming a LTR committee.
- American Red Cross Assistance Center: Napa Marriott Hotel opened on 09/01/14 from 1000 to 1900 hours for Napa and Solano County; center will be open for two weeks.
- Local Assistance Center (LAC): County and City of Napa: LAC opened on 09/08/14 at 301 1st Street, Napa (corner of 1st Street and Silverado Trail). The LAC is open until further notice.
